

Dear Valued Supplier,

In 2011 McCain Foods USA partnered with icix in order to implement a more effective and efficient way to manage our supplier documentation and compliance requirements. McCain has renewed this partnership and is now updating and expanding the icix program to include all suppliers of our North American plant operations.

icix provides Supply Chain Risk Management in the cloud. icix applications, together with the icix network, help the world's largest organizations connect, share data, and manage the performance and risk of their global supply chains. icix benefits for McCain's suppliers include:

- One place to view and manage your McCain compliance status
- Online repository for compliance/audit/test documents and data
- Ability to connect and manage multiple departments and facilities in one place
- Opportunity to gain food safety approval for all McCain locations

It is McCain's objective to have all active suppliers registered in icix. To get started with the icix program, please register and activate all manufacturing facilities that are currently supplying products to McCain Foods.

If you do not yet have an icix membership, please register now:

- Online web-form wizard: [McCain Foods Registration Link](#)
- Phone: 877-888-4249 (Option 2) or 650-581-2000 (Option 2)

Existing members please contact icix to connect to McCain Foods.

For additional information, please visit the McCain Supplier Resource Center:

We look forward to working with you on this project. Our partnership is a valued relationship and you are a proven contributor to the overall success of our business.

Sincerely,

A handwritten signature in blue ink, appearing to read "Michael O'Donnell".

Michael O'Donnell
Senior Director Purchasing
McCain Foods North America
